

PEER RESOURCE NETWORK

Are you looking for a peer support forum to share and learn about safety best-practices? Would you like access to subject matter expertise through SafeCare BC and its partners, including WorkSafeBC? Then our Peer Resource Network might be for you.

The Peer Resource Network brings together leadership teams from similar employers in a given region to participate in a small group setting.

3 GOALS OF PEER

- Increase awareness of workplace safety best-practices.
- Support leadership teams to adopt best-practices to enhance the organization's culture of safety by providing access to effective strategies and resources.
- Provide additional follow-up support to facilitate change.

WHAT YOU GET

By participating in the Peer Resource Network, you can expect the following:

- Baseline metrics on your organization's workplace injury statistics, including position relative to peer organizations.
- Access to external occupational health and safety resources and expertise, including
- Structured networking and information sharing opportunities to learn from peer organizations regarding organizational safety best-practices.
