## Discover our 2024 milestones in the annual report

To say 2024 was a busy year for us would be an understatement. We celebrated our tenth anniversary, redesigned our website, launched a new workshop, and developed a new strategic plan—to name just a few of the milestones we achieved this year.

All of this was made possible with your support. Whether you gave feedback in our annual survey, attended an in-person event, or just read our newsletter, we want to thank you for helping contribute to a culture of safety.

You can read more about our year in our annual report.

## Learn how to respond to violence in the workplace in March's featured course

Workplace violence is one of the leading causes of injury in healthcare. Violence isn't just physical—it includes threats, harassment, and intimidation. Do you know how to recognize it? How to respond to it?

Our Violence in the Workplace eCourse will teach you:

- How to recognize signs of workplace violence
- When and how to call for help
- The right way to report incidents
- How to conduct a Point of Care Assessment
- Your legal right to refuse unsafe work

Use code Violence50 to receive a discount during March.
